

# LEVEL 8: BUILD THE GRAND FINALE!

CREATE THE FINAL SCREEN YOUR PLAYERS SEE WHEN  
THEY SUCCESSFULLY BEAT YOUR ENTIRE GAME!

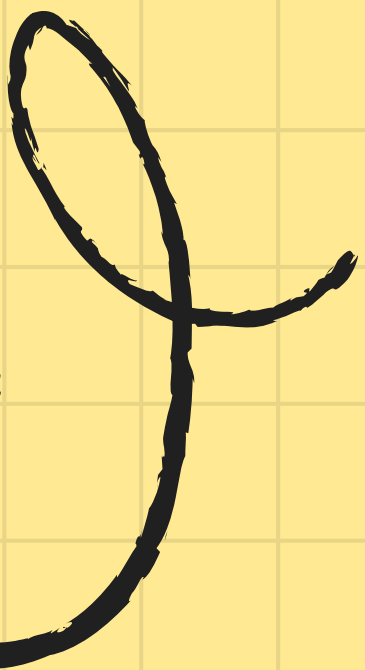

# STEP 1: INITIALIZE THE GAME OVER SCREEN

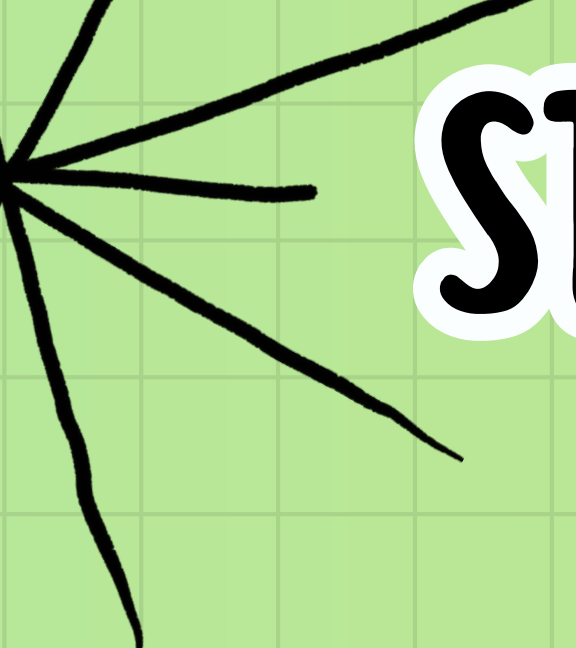

- Select "End Game Block" from the drop-down menu of blocks.

- Give it a final code name (like `the_end` or `final_victory`).

# STEP 2: CHOOSE YOUR FINALE ART & MESSAGE!

- **The Art:** Click the *ASSET MANAGER* button to upload or select your grand finale background image!
- **The Title Text (Optional):** Check the box labeled "*Use title text*" if you want to overlay text.
- **Customize:** Type your grand title (like "THANKS FOR PLAYING!" or "YOU SAVED THE WORLD!") and pick a vibrant font color.
-  **Skip Tip:** If your background image already has "The End" drawn on it, just leave the box unchecked and click submit!

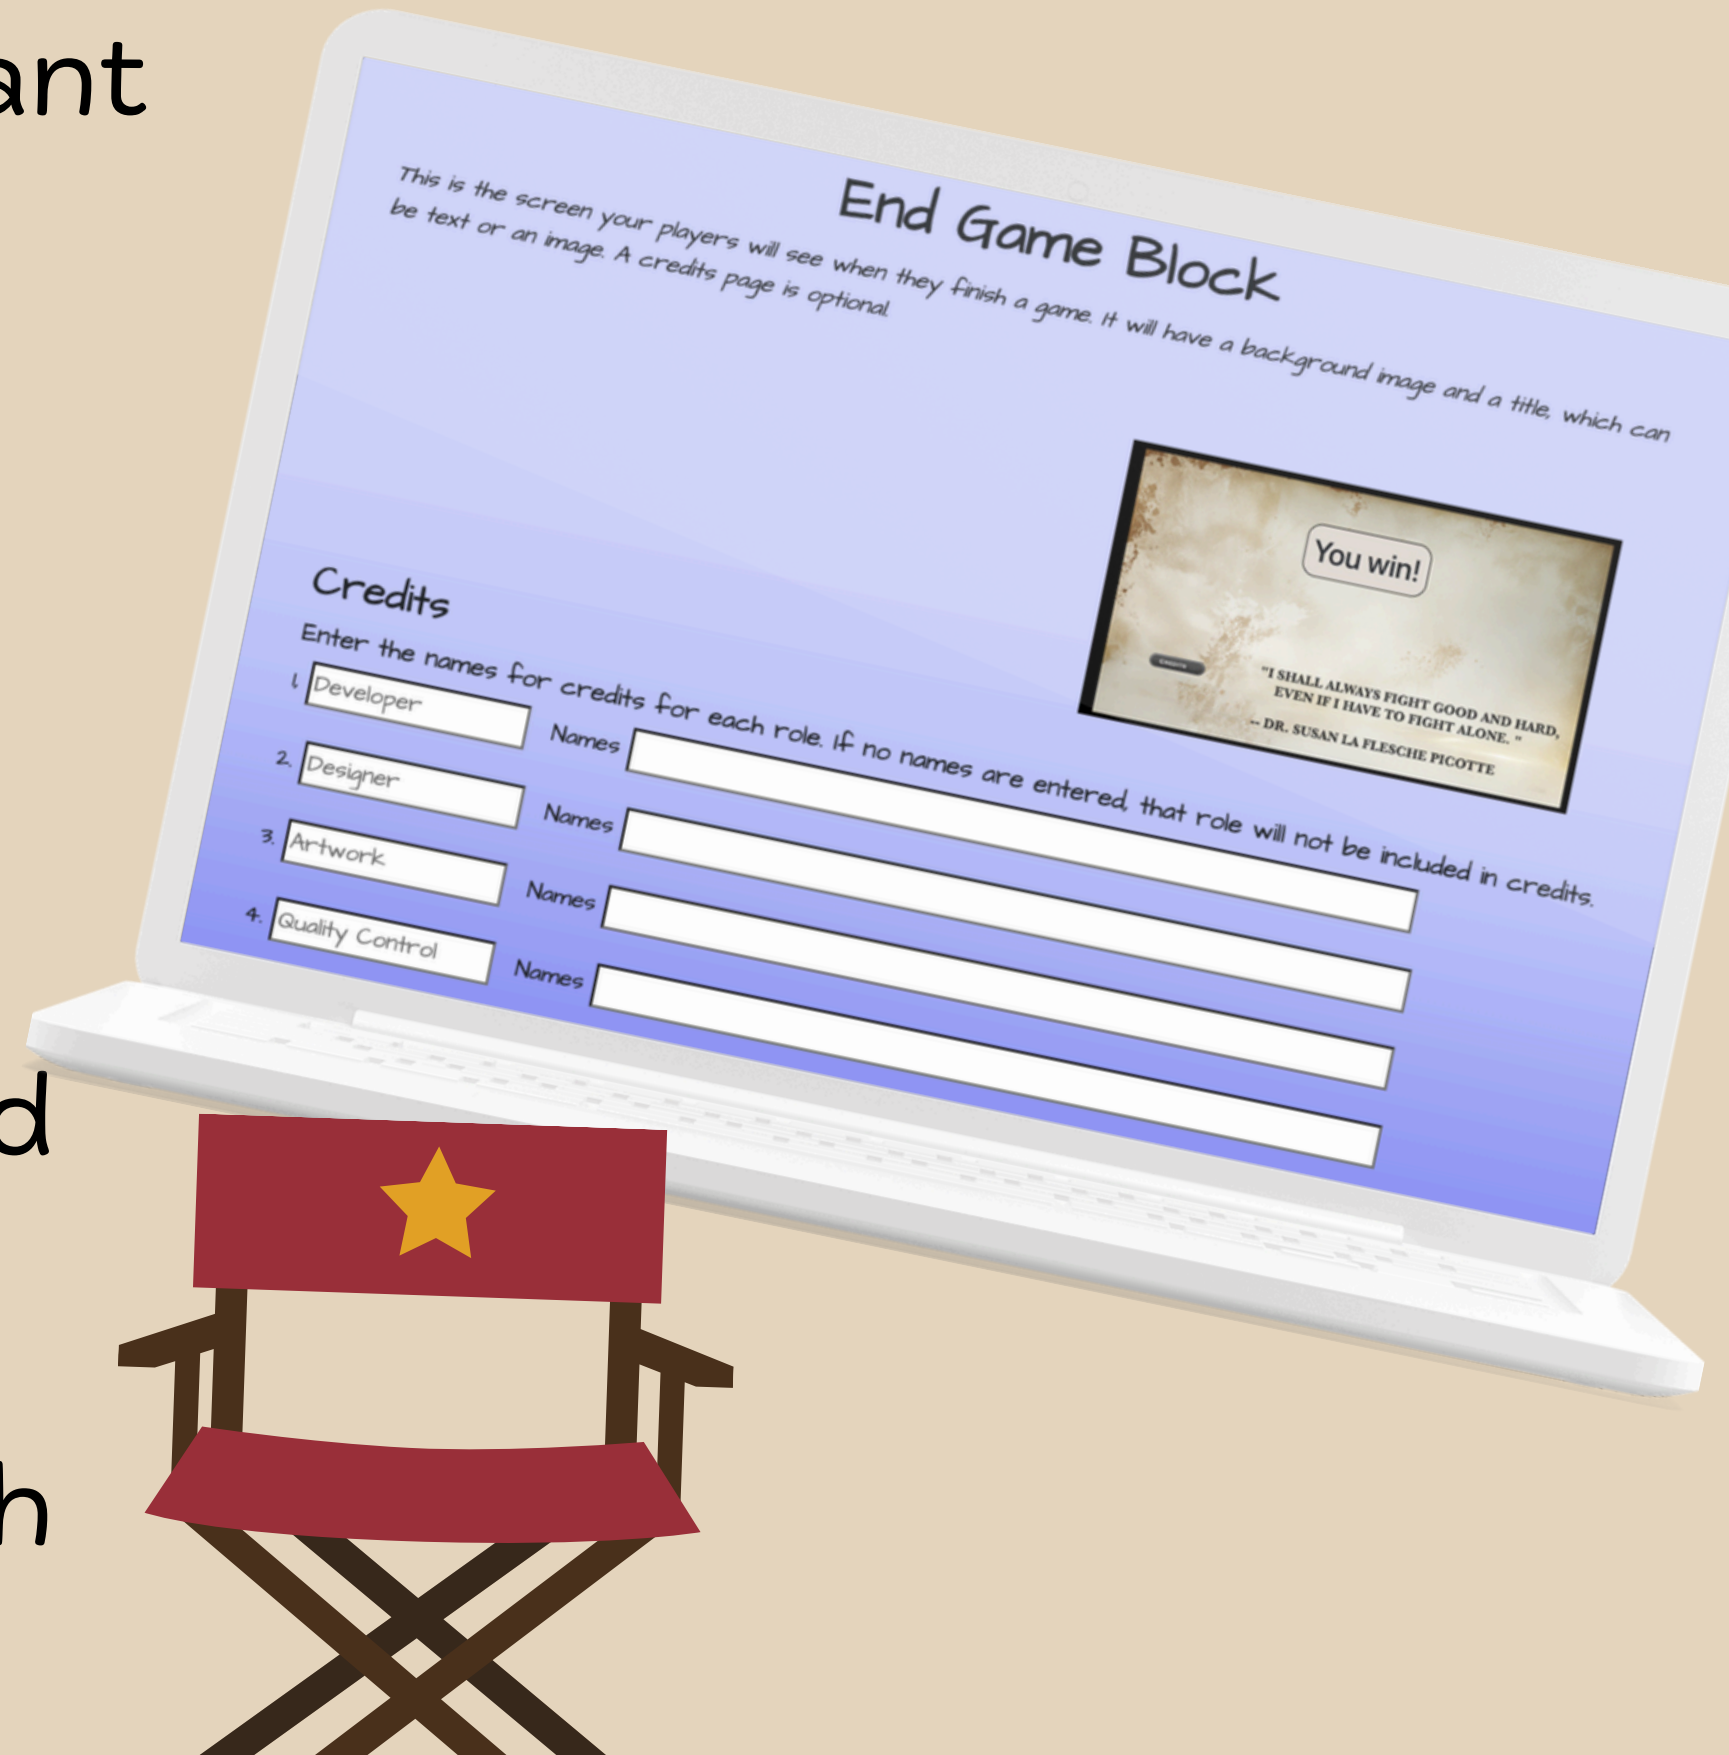

# STEP 3: ADD THE GAME CREDITS!

- The dashboard will ask if you want to add credits. Select **YES!**
- On the next screen, type your name, your team's names, and thank your players!
- Example:
  - Lead Developer: [Your Name]
  - Lead Artist: [Your Name]
  - Special Thanks: Our Class and Teacher!

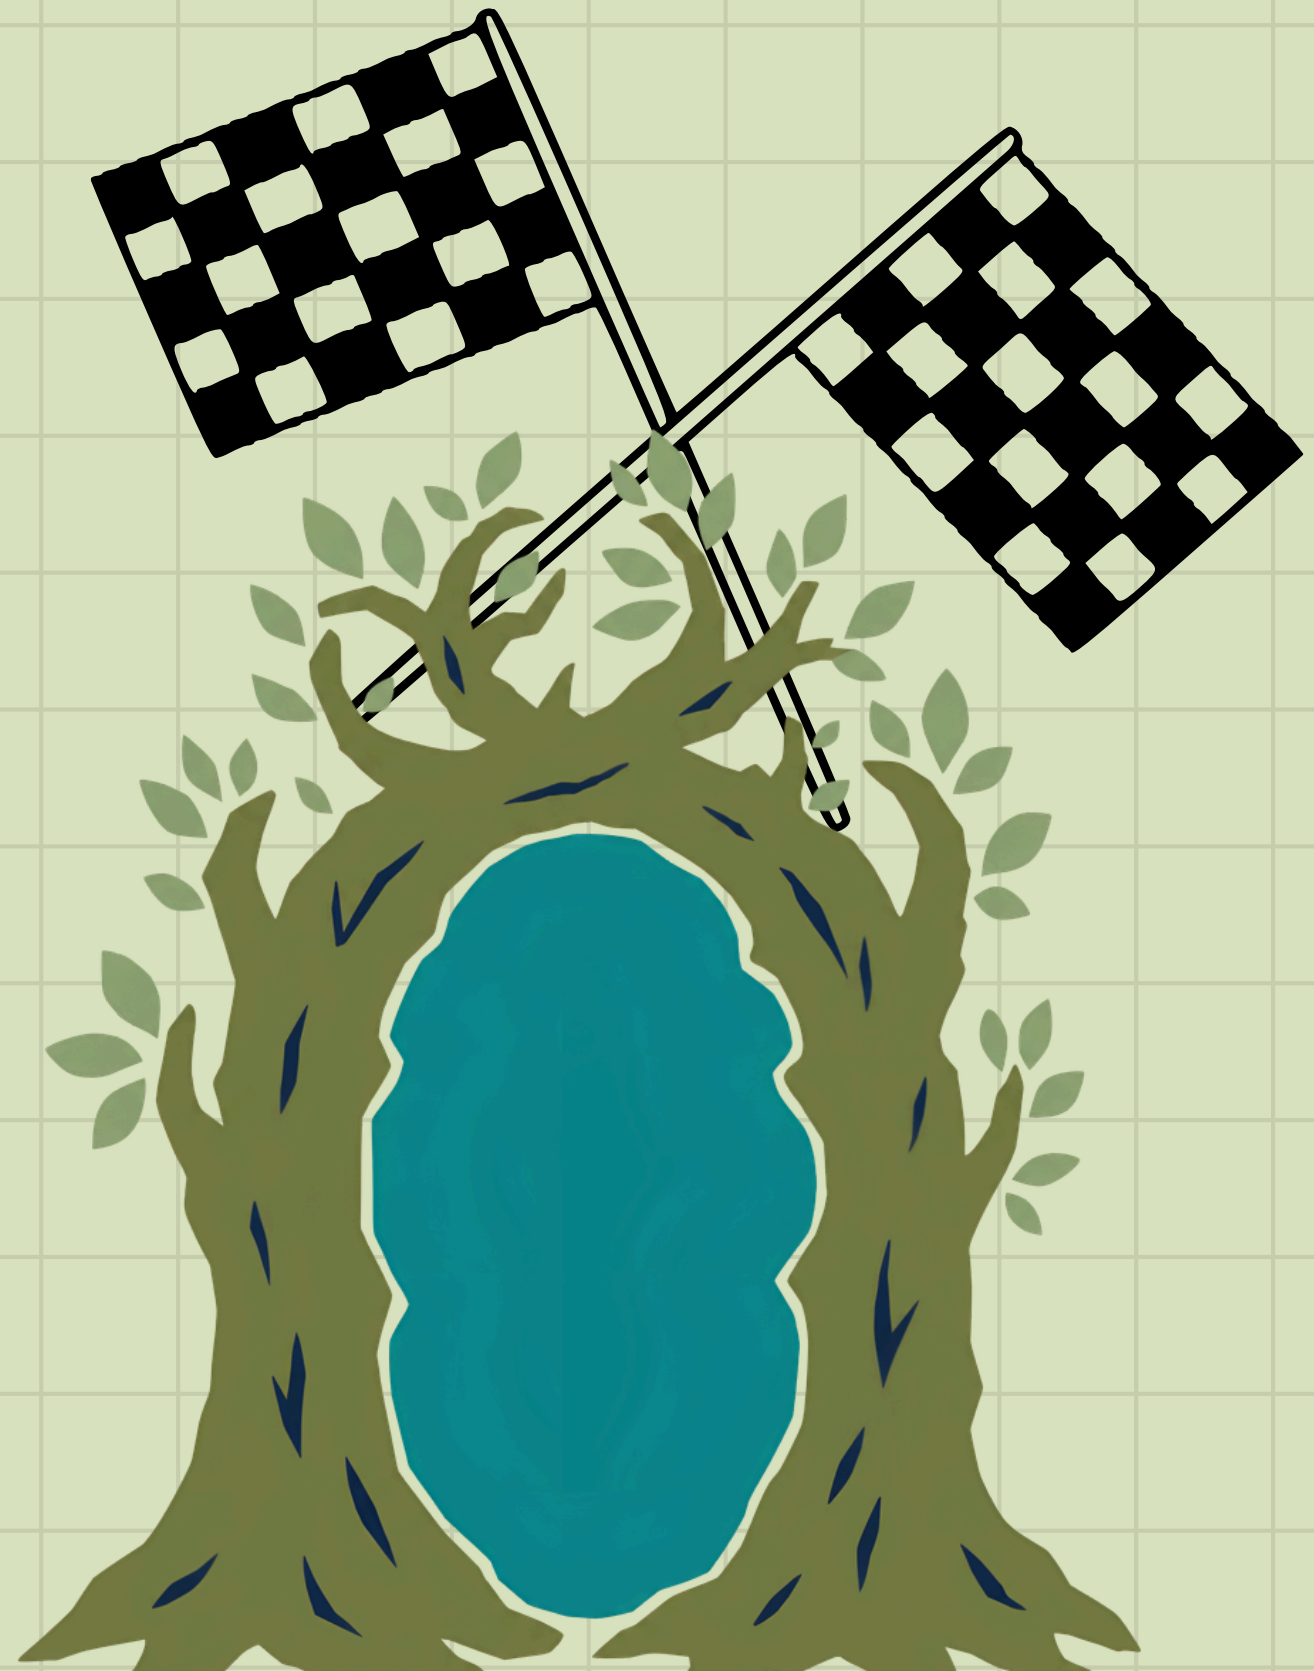

Note: If you want a quick finish without credits, just select NO.

# STEP 4: THE TRUE FINISH LINE

- **Notice something different?** For the first time, you **don't** need to name a "Next Block"!
- Because this is the absolute end of your game universe, the portal track stops right here.

# **GAME COMPLETED! YOU ARE A GAME DEVELOPER!**

- **YOUR END GAME BLOCK IS OFFICIALLY LOCKED AND LOADED!**
- **YOU WILL SEE YOUR FINAL BLOCK URL LINK ON THE SCREEN.**
- **WHAT'S NEXT?**

**✗ CREATE AN ENTIRELY NEW GAME BLOCK!**

**✗ EDIT AND POLISH AN OLD PROJECT!**

**✗ LOG OUT AND CELEBRATE WITH YOUR  
CLASSMATES!**
